

# THE BIG SOUND

**THE BIG SOUND** emerged in 2002 with the vintage sound of Soulful Reggae and roots music, reminiscent of the *Golden Era* of Jamaican music (1962 – '76). Their sound is bass heavy and rhythm-driven with classic horn lines, and sweet and soulful vocal harmonies. The Big Sound pours catchy melodies and an undeniable groove into their audience, with a diverse set from *traditional roots* Ska, Rock-steady, and Reggae. Enhanced with an authentic dub sound, The Big Sound delivers infectiously hypnotic and danceable tunes that will not be forgotten. Their influences include The Upsetters, Ken Boothe, Desmond Dekker, and Bob Marley and the Wailers.

**THE BIG SOUND** independently recorded and released their first album, *Stand So Tall*, in April 2004, which can be purchased through the band's website ([www.thebigsound.com](http://www.thebigsound.com)), CD Baby ([www.cdbaby.com](http://www.cdbaby.com)), or purchased as individual songs through iTunes and similar online music distribution companies. The band has recently finished the recording sessions for their second album, which will be released in 2007.
